

MAYVIEW NOTES.

AN AKRON MAN.

MR. WILLIAM F. STEESE.

Mr. William F. Steese, 701 Coburn St., Akron, Ohio, writes:

"I have been troubled for several years with *catarrh of the stomach*. Have used different patent medicines to no effect whatever, and have doctored considerably with family doctor. "Sometimes his treatment would relieve me for a few weeks, but would eventually have to go back to him, and that had kept up for several years.

"I was advised to use *Peruna*, and have taken three bottles. Never felt so good in my life. Am going to continue using it. Wouldn't be without it in the house. I will gladly recommend it to any one afflicted with catarrh of stomach, or stomach trouble of any kind."

The above is an oft-repeated story. Troubled for years with chronic catarrh. Tried different remedies and doctors to no avail. *Peruna* was advised by friends. Instant relief experienced. Great gratitude to *Peruna* expressed. This, in brief, is a story that is repeated to us a great many times every year.

No one could be in touch with our vast correspondence for one month without being impressed with the sincerity and truthfulness of these kind testimonials.

Peruna promptly produces an appetite, corrects digestion and relieves stomach difficulties that have resisted other treatment.

John Spears Injured.

The following is taken from last Saturday issue of the Mount Pleasant Iowa Journal:

A very sad and serious accident occurred at the tile factory yesterday afternoon about 3:30. Mr. John W. Spears, a new employee at that concern, had a portion of his scalp about eight inches in length, torn off his head. The accident occurred in this manner. There is an elevator cage which runs from the first to the second floor in which Mr. Spears wished to go to the second floor. He thought that the cage would stop as it usually has, by a beam which was across the top, but in some manner this beam had been taken away and as he was about to step from the cage to the floor the cage did not stop but continued its swift course upwards catching his head between the cage and the other part of the door. The elevator was stopped by his head catching in between but not until this portion of his scalp had been torn off. It required the assistance of four men to extricate him from this serious predicament.

Last week Mr. Spears met with the misfortune in having what money he had taken from his person. The accident at the present time makes him in hard luck. However he is receiving the best of attention and will soon be able to go back to work as usual. No blame can be attached to any one for the accident. The beam which usually stopped the cage had been removed, but Mr. Spears was not acquainted with the fact. However the tile people are assisting in the care of Mr. Spears and are doing all in their power to aid in his recovery.
